

TEC Mentor Coaching Program

When you are ready to pursue your ACC, PCC or MCC ICF Credential – We can support you through Group or Individualized Mentoring!

Overview

ICF requires that all coaches applying for the ACC/PCC/MCC credential via the portfolio or ACSTH path, work with a qualified mentor coach for 10 hours for a minimum of three months.

We offer a mentor-coaching program in a group or one-on-one format. Both formats provide all the necessary support: coaching, mentoring, and resources; all at an affordable price point and adjustable schedule.

Goal:

The main goal of the program is to support credential applicants who want to deepen their proficiency in the core competencies as they advance on their credentialing journey. We help our mentees achieve consistency in the behaviors outlined by the core competencies that reflect the level of credentialing they seek.

Fees:

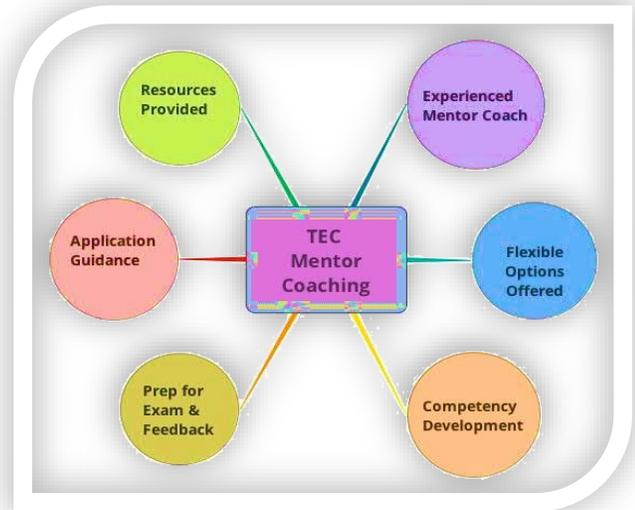

- For individual coaching: A package of 10 hours of mentor coaching is \$2,500 USD. Additional or make-up hourly sessions can be purchased at the rate of \$200/hour

What happens in the sessions?

Each session begins with a check-in, after which your coach will provide a deep dive on the competencies you are working on to broaden your awareness of its expression and influence. Live Coaching with Group participation follows. During the one-on-one sessions, your mentor coach will listen to your coaching and guide you through a debriefing. During the debriefing, your coach will help you recognize the coaching

style and patterns that show up. The intention is to help you become more conscious and distinguish between what you're doing well and what you may want to practice to develop more mastery. Your coach will work with you through the competencies feedback form focusing on the markers for your credential level. At the close of each session there will be a period of reflection and action planning.

There are three ways that your coach may observe your coaching:

1. You will provide an audio of a coaching session (30 -60 minutes) [** during one-on-one sessions*]
2. You will coach a client live in the mentor session
3. Your coach will help you identify blind spots and patterns; assisting you in developing greater proficiency
